ANIMAL FRIENDS FOUNDATION TO HOLD WEEKEND SPAY/NEUTER CLINICS

Animal Friends Foundation Inc (AFF) is pleased to announce the opening of a weekend low cost spay/neuter clinic for feral and tame cats and dogs through a partnership with Shore Veterinarians (www.ShoreVets.com).

AFF will hold clinics for cats only (tame or feral) one Sunday a month beginning October 4th 2009 at Shore's Williamstown location. They are conveniently located at 1056 Black Horse Pike in the Madison Plaza shopping center about 8 miles west of the Routes#54 & 322 interchange.

Low cost dog surgeries are available at this location or at their Seaville, Upper Township location. Please contact AFF for prices.

Clinics prices for cats will be \$35 for a male and \$50 for a female. This price includes their first rabies and distemper vaccinations. There is no charge for ear tipping of feral cats, which is recommended for identification purposes. No deposits are required! Hassle free appointments can be made via our website's (www.AnimalFriendsFoundation.com) on-line appointment request form or by simply calling our office at 856-503-5572.

In order to receive these prices, clients must contact AFF directly to schedule any spay/neuter surgeries. Prices are only good on designated clinic days.

Clients can be assured their cats and dogs will receive top notch care at this fully accredited animal hospital. Shore Veterinarians has been in business for over 20years and is a member of the American Animal Hospital Association and their facilities have been ranked in the top 17% in the USA.

The clinics are part of an AFF initiative aimed at reducing the numbers of unwanted companion animals in southern New Jersey that are placed in area shelters. Through a process called Trap, Neuter, Vaccinate, Return and Manage (TNVR/M), the populations of feral cat's colonies are stabilized and the cats

themselves receive much needed food, shelter and medical care provided by their caregivers.

For more information about the clinics, or AFF's other programs, call 856-503-5572 or visit www.AnimalFriendsFoundation.com.
